

# CPAudits

CPAudits has recovered over **\$44,375,000** in estimated premium for our clients.

**Our mission is to increase audit revenue by bringing non-compliant policyholders into compliance, collecting the estimated amount, or both.**

CPAudits was created in collaboration with premium audit executives to identify unrealized revenue, as well as bring efficiencies and cost savings to their premium audit environment.

We focus on the areas that typically burden operations, enabling staff to increase daily production goals and reduce the amount of days the audit premium is outstanding.

The combination of our premium audit services and premium collection services create an innovative solution for non-compliant audits, estimated audits or disputed actual audits.

Ultimately, this leads to an increase in audit quality, completion status, and revenue with **no additional fixed or hourly fees.**

### Advanced Analytics

NexusAudit™ software gathers advanced audit production analytics which can be downloaded into real-time reports.

### 24/7 Online Access

Nexus Audit Management™ software allows our clients to view audit status and analytics at any time with our secure online portal.

### Nationwide Coverage

Because our auditors operate virtually, we can audit any policyholder, no matter where they're located.

### Easy-to-Comply Process

Our process is simple -- all the insured needs to do to comply is send CPAudits the requested documentation.

### Integrated Collection Process

Our integrated process allows us to audit the policy, bill the premium, and collect it – all under one roof.

### Customer Service Call Center

Our dedicated customer service representatives are available to ensure a smooth audit process.

### Continuous Auditor Training

Each of our auditors participate in ongoing training to ensure the highest levels of compliance.

### Increased Calls to Reduce Noncompliance Rate

We work to establish several touch-points with policyholders to increase audit compliance.
